Bespoke Townhome

Luxe Condominium

ARIEL MULLER DESIGNS has created exclusive interiors and custom furniture in Canada and internationally for over 25 years. Passionately integrating design and technology, the company transforms spaces with artistry, personal attention, clear communication and meticulous care. Following are two award-winning examples.

Bespoke Townhome in Toronto follows the clients' brief to create a comfortable, elegant space inspired by some of the best boutique hotels they have visited on their travels. A key requirement for this bespoke home was to integrate leading-edge technology and home automation harmoniously with beautiful custom furnishings. Maximising convenience and efficiency, the property has been transformed into a magical and exciting place to live and

one which perfectly suits the clients and their busy lifestyle.

Luxe Condominium is a second home in Miami, Florida with spectacular waterside views of South Beach. The well-travelled owner and his daughter enjoy escaping the cold Canadian winters and so the property is very much their retreat in paradise. Ariel Muller's brief was to renovate the condominium to capitalise on the sweeping views and vibrant urban surroundings. The client wanted to open up the space to adopt a more contemporary lifestyle conducive to family enjoyment, entertaining and ultimately bringing the outdoors in. Fresh and bold, the condominium's new design harmonises with the surrounding ocean and natural elements while a newly furnished outdoor terrace further extends the living space and connects beautifully with the outdoors.
